

COBBLIBRARY FOUNDATION

Increasing the presence of the library through advocacy and fundraising.

About CLF

The Cobb County Library Foundation is a not-for-profit, tax-exempt organization that provides support to the Library System by raising funds and seeking other contributions from the community and business partnerships.

The Foundation was established in 2003 to build private support, enhance visibility for our library's impact and strengthen the public's commitment to a fully funded 21st century library system.

Fundraising Efforts

- Annual Booked for the Evening Gala: CLF's signature fundraising event featuring a guest author, silent auction, dinner and cocktails.
- Booked for Lunch
- Booked at Six

Why Give?

Libraries are changing & dynamic places.

Today's libraries go beyond books. While still offering traditional print resources, libraries have free computers, access to the Internet, free wi-fi and more.

Libraries are places of opportunity.

Libraries are places for education and self-help. And because they offer free and open access to all, they bring opportunity to all.

Libraries change lives.

Libraries have more than information. They have the power to transform lives.

Libraries change communities.

Libraries support community and civic engagement. As non-commercial institutions that welcome everyone equally, libraries offer a unique place to stay in touch, engage with others and find a place to contribute.

Funded Projects

- Cobb GEMS (Girls in Engineering, Math, and Science)
- Free public computers with Internet access
- Curriculum and educational support to local public, private & home schools
- Literacy programs, including GED classes, adult new-reader materials, and family literacy resources
- Summer reading programs for all ages
- Free computer classes and resume workshops
- ...and much more!
